

CHRISTOPHER F. WOJNAR

14 W. ELM STREET #1709
CHICAGO, IL 60610

312-587-8757
CHRIS@WOJI.COM

I am seeking a mid-level web developer position where I can utilize and expand my skills in client-side and server-side internet technologies, through building unique and dynamic web-based solutions. As a self-motivated, conscientious and fast-learning team player, I strive to challenge myself, envision new concepts and optimize my programming techniques.

EXPERIENCE

GRANT • JACOBY

Interactive Production Specialist

CHICAGO, IL

DEC 2003 – AUG 2004

- + Producing, developing and maintaining dynamically driven client web sites utilizing the latest technologies and techniques.
- + Furthering the practice of standards compliancy and web accessibility in project planning, process and development phases.

ZENTROPY PARTNERS

Site Developer

HOLLYWOOD, CA

FEB 2001 – OCT 2003

- + Preparing multiple web sites simultaneously from design assets, site architecture and functionality specs with strict deadlines.
- + Utilizing advanced HTML techniques and other various client-side technologies to produce high-quality web sites.
- + Developing, editing and optimizing server-side, database-driven scripting to produce a wide variety of functionality.
- + Coordinating with several vendors on large-scale web applications, through documentation and organizational systems.
- + Conceptualizing approaches to produce new client-desired functionality, providing feasibility and impact information.

CYBERNATION, LLC

Site Integrator

LOS ANGELES, CA

DEC 1999 – FEB 2001

- + Integrating server-side technologies, user interface concepts, and page design comps for a multitude of web site projects.
- + Programming dynamic web sites using HTML, JavaScript, DHTML, and CSS, adhering to strict design and UI guidelines.

THE WOMEN'S CENTER

Computer/Internet Specialist

CHICAGO, IL

SEP 1999 – NOV 1999

- + Planning, developing, and implementing all aspects of their internet/intranet web sites and content management systems.
- + Providing technical support regarding intranet, network, and databases as the organization adapted to new technologies.

EMERSON POWER TRANSMISSION

Computer Science Intern

AURORA, IL

JUN 1998 – SEP 1999

- + Developing and maintaining a departmental intranet web site for sharing internal documentation, and general information.
- + Designing, developing and integrating a secure site for interactions with OEMs, and other order management systems.

TECHNICAL SKILLS

- + Programming: HTML, XHTML, PHP, JavaScript, CSS, DHTML, XML, XSL/XSLT, XPath, DOM, SQL and RSS
- + Other Extensive Knowledge: image optimization, browser compatibility, database structures and standards compliancy
- + Development Tools: PhotoShop, ImageReady, HTML Kit, Homesite, Visual Studio and Flash
- + Operating Systems: Windows, Macintosh and UNIX platforms.
